Abstract: P.L. 114-95, section 302 (b) of the Rehabilitation Act of 1973, as amended by the Workforce Innovation and Opportunity Act (WIOA), the Rehabilitation Services Administration (RSA) provides Long-Term Training grants to academic institutions to support scholarship assistance to students. Students who receive scholarships under this program are required to work within the public rehabilitation program, such as with a state vocational rehabilitation agency, or an agency or organization that has a service arrangement with a state vocational rehabilitation agency. The student is expected to work two years in such settings for every year of full-time scholarship support. The program regulations at 34 CFR 386.33-386.35 and 386.40-386.43 detail the payback provisions and the RSA scholars' requirements to comply with them.

Section 302 (b)(2)(C) of the Act requires tracking of scholars' employment status and location of former scholars supported under the grants in order to ensure that students are meeting the payback requirement. Scholars must provide requested information necessary to meet the exit certification requirements.

In addition to meeting the requirement that all scholars be tracked, the information collected will provide performance data relevant to the rehabilitation fields and degrees pursued by RSA scholars, as well as the funds owed and the rehabilitation work completed by them. These data are used to assess program effectiveness and efficiency, and to meet the reporting requirements of P.L. 103-62 section 4 of the Government Performance and Results Act (GPRA).

RSA is requesting an extension of the currently approved collection for grantees (Institutions of Higher Education), scholars, and employers to submit data electronically through the online RSA Payback Information Management System (PIMS). There is no substantial change in the proposed data collected, nor estimated burden required to report data using the PIMS system.
